WHAT'S IN THIS FILE

This file: US Letter pages. Print at 100% (actual size) so the boxes stay the size they were designed.

Every size file holds the same 14 pages in TWO versions:

PART 1 (next 14 pages) — standard version, amounts in $.
PART 2 (after the divider) — no-currency version. Same pages, no currency symbols: every amount is a blank for you to write in, in any currency. One exception: the mini 52-week page keeps a small suggested ladder in plain numbers, with a write-your-own column beside it.

1. Cover & how to use this pack
2. Pick your tier
3. Payday first
4. $1 a day / a little every day
5. Spare change
6. $5 bill / one-bill
7. No-spend days
8. Mini 52-week, capped
9. The $100 jar / starter jar
10. The $500 jar / next-level jar
11. Bill-week step-down card
12. Skip cards & restart
13. Monthly review
14. Make your own challenge (60 boxes)

New here? Read the Start Here guide file first — two pages, everything in order. Print-and-write: no app, no account, no subscription.

LOW INCOME
MINI SAVINGS CHALLENGES

Small amounts. Real paydays. No guilt.

Start at $25 — pick a total you can actually finish

HOW IT WORKS — THREE STEPS

1 PICK YOUR TIER
Page 2. Choose a small total first — $25, $50, $100 or $250 — and write what the money is for.

2 PICK ONE CHALLENGE
Any page in this pack. One at a time is plenty.

3 SAVE ON PAYDAY FIRST
Page 3. The day money lands, move your amount first — then live on what is left.

Inside: tier picker · payday-first page · $1-a-day · spare change · $5 bill · no-spend days · mini 52-week (capped) · $100 jar · $500 jar · bill-week step-down card · skip cards & restart · monthly review · blank make-your-own page.

Print only the pages you need, at 100%. Print the no-spend calendar (page 7) again each month. Skip a week whenever life says so — page 12 is part of the plan.

START HERE

PICK YOUR TIER

Circle one total. Small and finished beats big and abandoned — you can move up a tier next month (page 13).

$25

The starter tier. One month of small days gets you there.

$50

Two starter tiers back to back.

$100

Matches the starter jar on page 9.

$250

Halfway to the $500 jar on page 10.

This money is for: _____

(An emergency fund is the job most people give this money: the cushion that stops a bad week turning into new debt.)

SPLIT IT YOUR WAY

My total _____ ÷ paydays until I want it done _____ = my payday amount _____

Don't know your payday amount yet? Page 3 is where it happens — every payday, first thing.

PAYDAY FIRST

When money lands, move your savings amount first — before bills, before spending. What is left is what you live on. Saving 'whatever is left' at month-end does not work, because nothing is ever left.

Payday date	Money in	Save first	Left to live on

THE TAIL GAME (OPTIONAL, SOME PAYDAYS)

Look at your pay amount — say 2,453.14. Save just the tail end of it: 3.14. Some paydays the tail is tiny, some days it is a nice jump. It is a game, not a rule: play it on the paydays when you can.

Print this page again when it fills up. Twelve rows is about three months of weekly pay, or six months of every-2-weeks pay.

$1 A DAY

One dollar a day, for 30 days. Too tight some days? Write 50 cents in the box instead — the amount you write is the amount that counts.

1	2	3	4	5
6	7	8	9	10
11	12	13	14	15
16	17	18	19	20
21	22	23	24	25
26	27	28	29	30

30 days x $1 = $30.

SPARE CHANGE

Every day, empty the coins out of your pockets, purse or car into a jar. That is the whole challenge. Tick off each day you did it — the jar does the counting, not you.

1	2	3	4	5
6	7	8	9	10
11	12	13	14	15
16	17	18	19	20
21	22	23	24	25
26	27	28	29	30

After 30 days, count the jar. I saved: _____ in change.

THE $5 BILL CHALLENGE

Every time a $5 bill lands in your hands, it goes into an envelope or a jar. No exceptions, no 'but I need it for coffee'. Color in one bill card each time.

1 $5	2 $5	3 $5	4 $5
5 $5	6 $5	7 $5	8 $5
9 $5	10 $5	11 $5	12 $5
13 $5	14 $5	15 $5	16 $5
17 $5	18 $5	19 $5	20 $5

20 bills x $5 = $100.

NO-SPEND DAYS

Pick 3 to 5 no-spend days each week — not all seven. Write the dates in, and color a day in when you make it. Bills, food and essentials are life, not cheating: a no-spend day just means no extras.

Month: _____

Mon	Tue	Wed	Thu	Fri	Sat	Sun

My no-spend days this week (circle yours): Mon Tue Wed Thu Fri Sat Sun

MINI 52-WEEK, CAPPED

The suggested ladder never goes above $5 a week — that cap is the whole idea. Cross the suggestion out and write your own amount whenever a week needs it.

Each block: week no. | suggested | yours (write it in) | tick when done

Suggested ladder total: $182 (the $2-$3-$4-$5 pattern, 13 rounds) — only if you follow it exactly. My own total, with my amounts: _____

THE FIRST $100 JAR

Your first named goal. $100 will not fix everything — it will absorb most small emergencies, and it proves the system works.

Color one section every time you add $10. Ten sections = $100.

THE $500 JAR

The second step of the ladder, after the $100 jar. Same rules, bigger cushion — this is the one that turns most emergencies into inconveniences.

Color one section every time you add $25. Twenty sections = $500.

BILL-WEEK STEP-DOWN CARD

Some weeks, every bill lands at once. Those weeks are not you failing — they are the calendar. Mark them in advance, and give those weeks a smaller job on purpose.

Which week	Big bills due	That week's job
Week 1 of my pay cycle		full / half / change only
Week 2		full / half / change only
Week 3		full / half / change only
Week 4		full / half / change only

THE RULE

Big-bill week = half your usual amount, or spare change only. Decided in advance, it is part of the plan. Decided after a rough week, it is still fine — use a skip card (page 12) and keep going.

My big bills, and when they hit:

SKIP CARDS

A week you cannot save is not a failed week. Fill in a skip card instead: the week gets a reason and a next step, and the plan bends instead of breaking.

SKIP CARD 1 Week of: _____

I skipped because: _____

Next week I will: _____ ☐ still going

SKIP CARD 2 Week of: _____

I skipped because: _____

Next week I will: _____ ☐ still going

SKIP CARD 3 Week of: _____

I skipped because: _____

Next week I will: _____ ☐ still going

CAME BACK AFTER A BREAK? THREE STEPS

1. Do not catch up. The missed weeks are gone — they are not a debt you owe the plan.
2. Start again at the next payday, at your tier — or one tier down (page 2). Smaller counts.
3. Color in today's box. That is it. You are back.

A skipped week is a week the plan bent. Quitting is the only way it breaks.

ONCE A MONTH - FIVE MINUTES

MONTHLY REVIEW

Reset, do not judge. Look at what actually happened, set next month's tier, and turn the page.

Month: _____

This month I saved: _____

Paydays I saved on: _____ _____ of _____

Skip cards used: _____ (they count as using the plan, not breaking it)

Next month's tier (circle one):

one tier down same tier one tier up

OPTIONAL — ONE NUMBER, JUST THE RECORD

Extra debt paid this month: _____

One thing that worked: _____

One thing to change: _____

Then close the page. Next month starts at the next payday — page 3.

MAKE YOUR OWN CHALLENGE

Your challenge, your amounts. No currency symbols on this page — it works for any money, any idea.

Challenge name: _____

Each box is worth: _____ 60 boxes = _____ in total

My rule: _____

PART 2

NO-CURRENCY VERSION

The same 14 pages follow, with no currency symbols. Every amount is a blank to write in yourself — any currency, any income, any country.

LOW INCOME
MINI SAVINGS CHALLENGES

Small amounts. Real paydays. No guilt.

NO-CURRENCY VERSION — every amount is yours to write in

HOW IT WORKS — THREE STEPS

1 PICK YOUR TIER

PICK YOUR TIER

Circle one total. Small and finished beats big and abandoned — you can move up a tier next month (page 13).

TIER 1 ☐

My total: _____

The starter tier. The smallest of your four.

TIER 2 ☐

My total: _____

A step up from Tier 1.

TIER 3 ☐

My total: _____

Matches the starter jar on page 9.

TIER 4 ☐

My total: _____

Halfway to the next-level jar on page 10.

Write four totals of your own, smallest first — in any currency. Start with Tier 1: the one that feels almost too easy. That feeling is the point.

This money is for: _____

(An emergency fund is the job most people give this money: the cushion that stops a bad week turning into new debt.)

SPLIT IT YOUR WAY

My total _____ ÷ paydays until I want it done _____ = my payday amount _____

21	22	23	24	25
26	27	28	29	30

After 30 days, count the jar. I saved: _____ in change.

THE ONE-BILL CHALLENGE

Choose one note value and write it in. Every time a note of that value lands in your hands, it goes into an envelope or jar — no exceptions, no 'but I need it for coffee'.

My note value: _____

20 bills x my note _____ = _____ (work it out and write it in).

NO-SPEND DAYS

Pick 3 to 5 no-spend days each week — not all seven. Write the dates in, and color a day in when you make it. Bills, food and essentials are life, not cheating: a no-spend day just means no extras.
