Weekly Listing Update — Delivery Guide

Settled Days · Canva template · C037

Thank you for your purchase. This guide has your Canva template link and the steps to copy the design into your own Canva account. Keep this PDF: if the link ever stops working, message the shop and we will send a fresh one.

Your template link

https://canva.link/vmzqaen0brhxwd0

Steps

1. Open the link. You need a free Canva account. If you do not have one, create it first at canva.com, then open the link while signed in.
2. First, click File > Make a copy. The copy lands in your own Canva account.
3. Wait for the copy, then open your copy and edit it there.
4. Make it yours. Change the address, dates, showings, feedback, and next steps for your listing. Download or share the finished page as you like.
5. Reuse it every week. Make one copy per listing in your own Canva account, and reuse the layout every week.

Important: always copy first. If you edit the shared design directly without copying it first, you will be editing the seller's original — always click File > Make a copy first, then edit your copy.

What you get

- One-page template — Weekly Listing Update Seller Report, for one listing per week.
- Sections already laid out: property address, week dates, showings, buyer feedback, and next steps.
- The sample page shows one listing (12 Maplewood Lane, October 20–26, 2026) with 4 showings that week — replace the address, dates, and numbers with your own listing.
- Edit the text, colors, and your own branding in Canva. The layout stays the same week after week, so each update takes minutes.

Before you start — please read

- You need a free Canva account to copy and edit the template. Delivery is by ordinary Canva share link, not a Canva template link — no Pro trial is needed.
- This is a digital template, delivered by Canva share link. No physical item will be shipped, and the design itself is not a PDF or image file — it lives in Canva. The only PDF you download is this delivery guide, which has the link and the steps.
- The template was built in Canva. How it looks can vary slightly with the Canva version and the device you open it on.

License — please read

- Use for your own listings: use the template for as many of your own weekly updates as you like.

- You may not share, resell, redistribute, or give away the template link or the design itself, in whole or in part, free or paid.
- You may not claim the design as your own work, or use it in a logo or trademark.
- The sample listing (12 Maplewood Lane, October 20–26, 2026) is a made-up example. Replace it with your own listing before you send it to a seller.
