Wedding Binder

Every part of the wedding plan in one binder: budget, countdown, vendors, guests and seating.

Use it with the SettledDays wedding budget spreadsheet: the spreadsheet does the sums, this binder keeps the plans.

How to Use This Binder

Print the pages you need and file them in your own binder, section by section. Print extra copies of any page you will fill more than once — the spend log, the vendor log and the notes pages, for example.

Every page can also be filled in on a computer or tablet first: type into the boxes, save, and print the finished page.

The binder works alongside the wedding budget spreadsheet. The spreadsheet calculates; this binder holds the paper side — checklists, lists and plans. Figures written here do not calculate, so enter the same figures in the spreadsheet to keep the totals current.

Contents

Countdown **Page 3**
Month-by-month checklists, from setting the budget to the wedding day itself.

Budget **Page 10**
The budget overview on paper, plus a spend log for what actually goes out.

Vendors **Page 15**
Compare quotes side by side, then keep contacts and payments in one place.

Guests & Seating **Page 22**
The guest list, replies and table plan — who sits where.

Notes & Day-Of **Page 31**
Blank pages for anything else, and a timeline for the day itself.

The contents links above work on screen and do not print.

Countdown

This section holds the countdown checklists: six stages from 12 months out to the final week. Work through one stage at a time and tick off each task as it is done.
